01 • THE LEAK

The ad works. The phone rings at 18:40. Nobody picks up.

Campaigns bring calls when the business is busiest: during a treatment, at the counter, after closing. A caller who is not answered rarely calls twice; they ring the next business on the list, and the campaign looks weaker than it was.

after 17:00, before 8:00 or at the weekend

Monday to Friday, 8:00 to 17:00

ZvonAI data: 221 calls to 5 businesses, 16 Aug to 14 Sep 2026.

39.5%

of Poles already trust a virtual assistant with simple, routine matters.

Armatis, 2025.

02 • WHAT ZVONAI DOES

An AI receptionist that answers in Polish, in the business's name.

1 Answers every call

Day and night, in natural Polish or English, and says it is a virtual assistant.

2 Books into the calendar

Knows the services, prices and opening hours, and takes deposits when the business wants them.

3 Texts the client

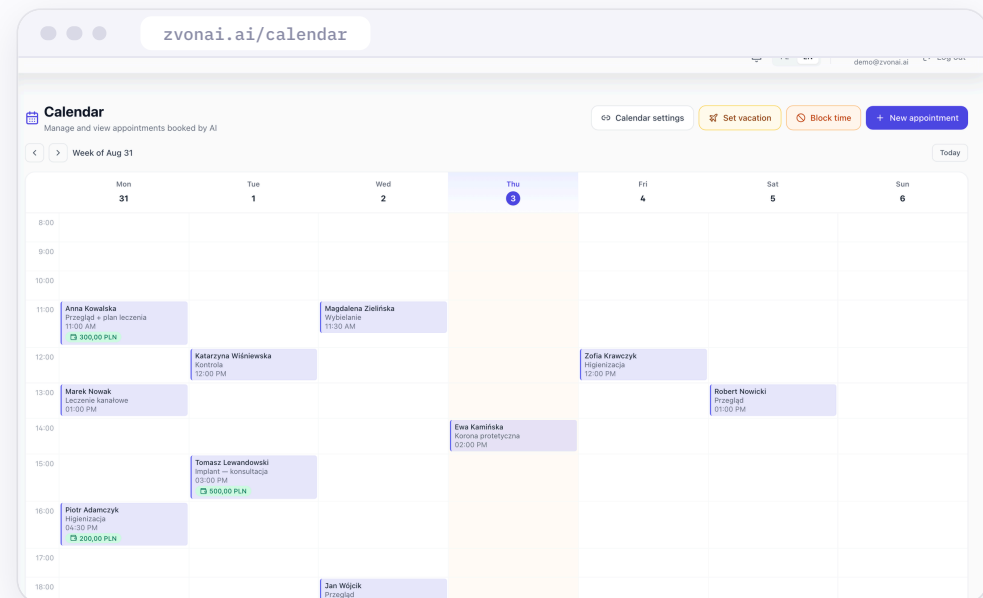

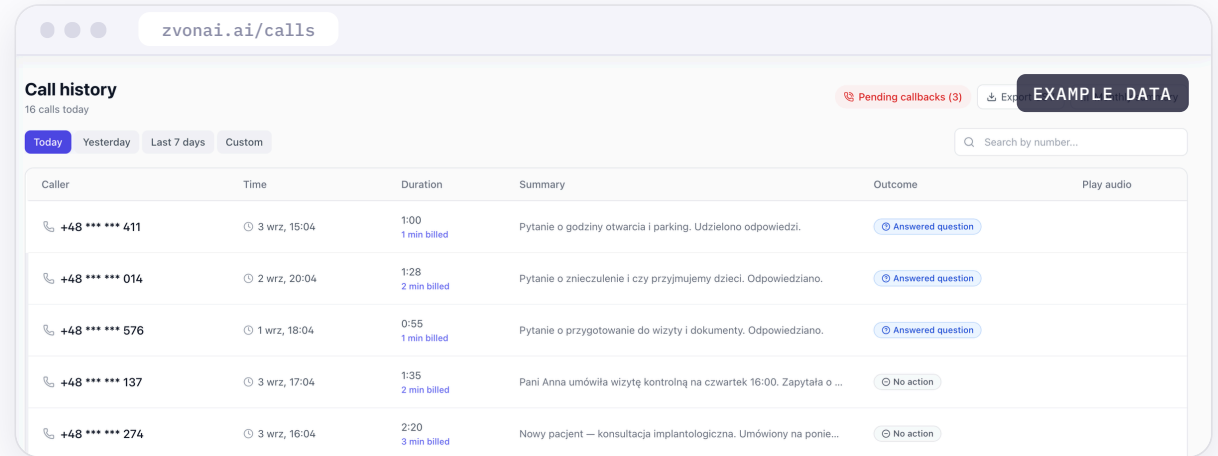

A confirmation SMS the moment the visit is booked.

4 Hands over to a person

When the caller asks for someone, it puts the call through or takes a message.

Set up in about 15 minutes with our guide, or we set it up by phone (199 PLN) or on site (399 PLN).

Campaigns that convert

Transcript and reason for every call

Income that repeats

20% of each of a client's first 12 payments, then 10% for as long as they pay. No invoices to chase and no support calls: we sell, bill and support.

Before you decide.

Who supports my clients?

We do: setup help, questions and problems. In the resell model you are the first line and we are the second.

How do I get paid?

Monthly, on your own invoice: the program is for registered businesses. You confirm your payout details in the portal.

Can I show my own brand?

Your clients see ZvonAI. In the resell model you agree your own price with them.

What if a client cancels?

Commission stops with their payments. A payment that is refunded is taken back from a later payout.

Is it GDPR compliant?

Yes. Data stays in the EU, a data processing agreement is part of every account, and callers hear that they are talking to a virtual assistant.

When is a client mine?

When they sign up through your link or code and pay within 90 days. From then on, commission comes with every payment they make.
